

### SECTION 1. IDENTIFICATION

Product Name **BLUE CORAL CRÈME PROTECTANT**  
Material number 000000000030006822

#### **Recommended use of the chemical and restrictions on use**

Recommended use Vehicle care – leather protectant

Australian Distributor Velocity Vehicle Care Pty Ltd  
5 Horsburgh Drive, Altona North, Vic, 3025  
Ph: 1300 990 074

Emergency Number **New Zealand: 0800 243 622**

Overseas Supplier NCS Vehicle Care

### SECTION 2. HAZARDS IDENTIFICATION

#### **Dangerous Goods Classification**

Classified as non-Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code 7th ed.) for transport by Road and Rail.

Classified as non-Dangerous Goods under NZS 5433:2012 Transport of Dangerous Goods on Land.

#### **GHS Classification**

**Hazardous according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) 7th ed.**

**Skin sensitisation** Category 1

**Reproductive toxicity** Category 2

**GHS label elements**

**Hazard pictograms**

**Signal Word**

**WARNING**

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Hazard statements        | <b>H317 May cause an allergic skin reaction.</b><br><b>H361 Suspected of damaging fertility or the unborn child.</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Precautionary statements | <b>Prevention</b><br>P201 Obtain special instructions before use.<br>P202 Do not handle until all safety precautions have been read and understood.<br>P261 Avoid breathing mist, vapours or spray<br>P272 Contaminated work clothing should not be allowed out of the workplace.<br>P280 Wear protective gloves.<br><b>Response</b><br>P302 + P352 IF ON SKIN: Wash with plenty of soap and water.<br>P333 + P313 If skin irritation or rash occurs: Get medical advice.<br>P362 + P364 Take off contaminated clothing and wash it before re-use.<br>P308 + P313 IF exposed or concerned: Get medical advice.<br><b>Storage</b><br>P405 Store locked up.<br><b>Disposal</b><br>P501 Dispose of contents and container in accordance with local, regional and national regulations. |

**SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS**

Substance / Mixture                      Mixture

**Hazardous components**

| Chemical name                | CAS-No.  | Concentration [%] |
|------------------------------|----------|-------------------|
| Proprietary Fragrance        | Mixture  | ≥ 0.1 - < 1       |
| octamethylcyclotetrasiloxane | 556-67-2 | ≥ 0.1 - < 1       |

The exact percentages of disclosed substances are withheld as trade secrets.

## **SECTION 4. FIRST AID MEASURES**

|                                                                    |                                                                                                                                                                                                                                                                                                                                      |
|--------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General advice</b>                                              | Move non-essential personnel away from treatment area, spill, or dangerous area. Do not leave victim unattended.<br>Have this safety data sheet available for emergency/medical responders.                                                                                                                                          |
| <b>If inhaled</b>                                                  | Consult a physician after significant exposure. Move victim to fresh air. If unconscious place in recovery position and seek medical advice. If symptoms persist, call a doctor.                                                                                                                                                     |
| <b>In case of skin contact</b>                                     | If on skin, rinse well with water.<br>If on clothes, remove clothes.<br>If skin irritation persists, call a physician.                                                                                                                                                                                                               |
| <b>In case of eye contact</b>                                      | Flush eyes with water as a precaution.<br>Remove contact lenses.<br>Protect unharmed eye.<br>Keep eye wide open while rinsing.<br>If eye irritation persists, consult a specialist.                                                                                                                                                  |
| <b>If swallowed</b>                                                | Clean mouth with water and drink afterwards plenty of water.<br>Keep respiratory tract clear.<br>Do not give milk or alcoholic beverages.<br>Never give anything by mouth to an unconscious person.<br>If symptoms persist, call a physician. Contact the Poison's Information Centre (Australia 131 126; New Zealand 0800 764 766). |
| <b>Protection of first aiders</b>                                  | If potential for exposure exists refer to Section 8 for specific personal protective equipment.                                                                                                                                                                                                                                      |
| <b>Notes to physician</b>                                          | Treat symptomatically.                                                                                                                                                                                                                                                                                                               |
| <b>Most important symptoms and effects, both acute and delayed</b> | Symptoms may include itching, redness, swelling.<br>Effects are dependent on exposure (dose, concentration, contact time).<br>Review section 2 of SDS to see all potential hazards.<br>May cause an allergic skin reaction.<br>Suspected of damaging fertility or the unborn child.                                                  |

## **SECTION 5. FIREFIGHTING MEASURES**

|                                                      |                                                                                                                                                                                                                                                                               |
|------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Suitable extinguishing media</b>                  | Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.                                                                                                                                                                                                      |
| <b>Unsuitable extinguishing media</b>                | Do not use water jet as an extinguisher, as this will spread the fire.                                                                                                                                                                                                        |
| <b>Specific hazards during firefighting</b>          | Do not allow run-off from firefighting to enter drains or water courses.                                                                                                                                                                                                      |
| <b>Hazardous combustion products</b>                 | Silicon oxides<br>Smoke<br>Carbon dioxide (CO <sub>2</sub> )<br>Carbon monoxide<br>Nitrogen oxides (NO <sub>x</sub> )<br>Chlorine compounds                                                                                                                                   |
| <b>Special protective equipment for firefighters</b> | Wear self-contained breathing apparatus for firefighting if necessary.                                                                                                                                                                                                        |
| <b>Specific extinguishing methods</b>                | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Use a water spray to cool fully closed containers. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. |

**SECTION 6. ACCIDENTAL RELEASE MEASURES**

**Personal precautions, protective equipment and emergency procedures**

Use personal protective equipment.  
Ensure adequate ventilation.  
Evacuate personnel to safe areas.  
Material can create slippery conditions.

**Environmental precautions**

Prevent product from entering drains.  
Prevent further leakage or spillage if safe to do so.  
If the product contaminates rivers and lakes or drains inform respective authorities.

**Methods and materials for containment and cleaning up**

Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).  
Keep in suitable, closed containers for disposal.

**SECTION 7. HANDLING AND STORAGE**

**Advice on safe handling**

Do not breathe vapours or spray mist.  
Avoid exposure - obtain special instructions before use.  
Avoid contact with skin and eyes.  
Smoking, eating and drinking should be prohibited in the application area.  
Dispose of rinse water in accordance with local and national regulations.  
Persons susceptible to skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.

**Conditions for safe storage**

Keep container tightly closed in a dry and well-ventilated place.  
Containers which are opened must be carefully resealed and kept upright to prevent leakage.  
Observe label precautions.  
Electrical installations / working materials must comply with the technological safety standards.  
Do not freeze.

**SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

Components with workplace control parameters

| Components     | CAS-No. | Value type (Form of exposure) | Control parameters / Permissible concentration | Basis |
|----------------|---------|-------------------------------|------------------------------------------------|-------|
| None allocated |         |                               |                                                |       |

| <b>Biological occupational exposure limits</b> |         |                    |                     |               |                           |       |
|------------------------------------------------|---------|--------------------|---------------------|---------------|---------------------------|-------|
| Component                                      | CAS-No. | Control parameters | Biological specimen | Sampling time | Permissible concentration | Basis |
| None allocated                                 |         |                    |                     |               |                           |       |

Version 2.0

## Safety Data Sheet

Revised 19 Oct 2021

BCL Crème Protectant 2 x 1 Gal

|                                      |                                                                                                                                                                                 |
|--------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Engineering measures</b>          | Effective exhaust ventilation system.                                                                                                                                           |
| <b>Personal protective equipment</b> |                                                                                                                                                                                 |
| <b>Respiratory protection</b>        | Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines. |
| <b>Hand protection</b>               | Wear rubber gloves or other chemical resistant gloves e.g. nitrile, neoprene, natural rubber or PVC if skin contact expected.                                                   |
| <b>Eye protection</b>                | Access to clean water to rinse eyes must be available, options include: eye wash stations or showers, or eye wash bottles with pure water.<br>Tightly fitting safety goggles    |
| <b>Body protection</b>               | Impervious clothing.                                                                                                                                                            |
| <b>Hygiene measures</b>              | When using do not eat or drink.<br>When using do not smoke.<br>Wash hands before breaks and at the end of workday.                                                              |

## SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

|                                        | <b>Product</b>    |
|----------------------------------------|-------------------|
| Appearance                             | liquid            |
| Colour                                 | light blue        |
| Odour                                  | pungent           |
| Odour threshold                        | no data available |
| pH                                     | 7.5 - 10          |
| Melting point/freezing point           | no data available |
| Boiling point                          | no data available |
| Flash point                            | >100 °C           |
| Evaporation rate                       | no data           |
| Upper explosion limit                  | no data           |
| Lower explosion limit                  | no data           |
| Vapour pressure                        | no data           |
| Relative vapour density                | no data           |
| Density                                | 0.96 - 1          |
| Water solubility                       | no data           |
| Solubility in other solvents           | no data           |
| Partition coefficient: n-octanol/water | no data           |
| Auto-ignition temperature              | not determined    |
| Thermal decomposition                  | no data           |
| Viscosity, kinematic                   | no data           |

**SECTION 10. STABILITY AND REACTIVITY**

|                                    |                                                                                                                                             |
|------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| Chemical stability                 | Stable under normal conditions.                                                                                                             |
| Possibility of hazardous reactions | None known.                                                                                                                                 |
| Conditions to avoid                | Extremes of temperature and direct sunlight.                                                                                                |
| Incompatible materials             | No data available                                                                                                                           |
| Hazardous decomposition products   | No decomposition if stored and applied as directed.<br>Hazardous combustion products:<br>Carbon oxides<br>Nitrogen oxides (NOx)<br>Chlorine |

**SECTION 11. TOXICOLOGICAL INFORMATION****Potential Health Effects**

|                                                   |                                                                                                                    |
|---------------------------------------------------|--------------------------------------------------------------------------------------------------------------------|
| <b>Information on possible routes of exposure</b> | Possible workplace exposure routes are:<br>Inhalation<br>Eye contact<br>Skin contact                               |
| <b>Acute symptoms related to exposure</b>         |                                                                                                                    |
| Eye                                               | May cause mild irritation to the eyes.                                                                             |
| Skin                                              | May cause mild skin irritation or an allergic reaction with frequent or prolonged skin contact.                    |
| Inhalation                                        | May cause mild respiratory irritation.                                                                             |
| Ingestion                                         | Not known to be toxic when swallowed. However, if ingested, symptoms may include nausea, vomiting, pain, diarrhea. |
| Acute oral toxicity                               | Acute toxicity estimate : > 5,000 mg/kg<br>Method: Calculation method                                              |
| Acute inhalation toxicity                         | No data                                                                                                            |
| Acute dermal toxicity                             | No data                                                                                                            |
| Skin corrosion/irritation                         | May cause skin irritation and/or dermatitis.                                                                       |
| Serious eye damage/eye irritation                 | No data available                                                                                                  |
| Respiratory or skin sensitisation                 | May cause skin sensitisation.                                                                                      |
| Germ cell mutagenicity                            | no data available                                                                                                  |
| Carcinogenicity                                   | no data available                                                                                                  |

Version 2.0

## Safety Data Sheet

Revised 19 Oct 2021

BCL Crème Protectant 2 x 1 Gal

|                          |                   |
|--------------------------|-------------------|
| Reproductive toxicity    | no data available |
| STOT - single exposure   | no data available |
| STOT - repeated exposure | no data available |
| Aspiration toxicity      | no data available |

### Components (Ingredients)

|                                   |                                                                             |
|-----------------------------------|-----------------------------------------------------------------------------|
| Acute oral toxicity               | Octamethylcyclotetrasiloxane<br>LD50 Rat: > 2,000 mg/kg                     |
| Acute inhalation toxicity         | Octamethylcyclotetrasiloxane<br>LC50 Rat: 36,000 mg/l<br>Exposure time: 4 h |
| Acute dermal toxicity             | Octamethylcyclotetrasiloxane<br>LD50 Rabbit: > 4,640 mg/kg                  |
| Skin corrosion/irritation         | No data available                                                           |
| Serious eye damage/eye irritation | No data available                                                           |
| Respiratory or skin sensitisation | No data available                                                           |
| Germ cell mutagenicity            | No data available                                                           |
| Carcinogenicity                   | No data available                                                           |
| Reproductive toxicity             | No data available                                                           |
| STOT – single exposure            | No data available                                                           |
| STOT - repeated exposure          | No data available                                                           |

## SECTION 12. ECOLOGICAL INFORMATION

|                                                            |                                   |
|------------------------------------------------------------|-----------------------------------|
| <b>Ecotoxicity</b>                                         | This product has not been tested. |
| <b>Toxicity to fish</b>                                    | no data available                 |
| <b>Toxicity to daphnia and other aquatic invertebrates</b> | no data available                 |
| <b>Toxicity to algae</b>                                   | no data available                 |
| <b>Components (Ingredients)</b>                            |                                   |
| <b>Toxicity to fish</b>                                    | no data available                 |
| <b>Toxicity to daphnia</b>                                 | no data available                 |
| <b>Toxicity to algae</b>                                   | no data available                 |
| <b>Persistence and degradability</b>                       | no data available                 |
| <b>Bioaccumulative potential</b>                           | no data available                 |
| <b>Partition coefficient: n-octanol/water</b>              | no data available                 |
| <b>Mobility in soil</b>                                    | no data available                 |

## **SECTION 13. DISPOSAL CONSIDERATIONS**

### **Disposal methods**

|                            |                                                                                                                                                                                                                |
|----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Waste product and residues | Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations. Dispose of wastes in an approved waste disposal facility. |
| Contaminated packaging     | Empty remaining contents. Dispose of as unused product. Empty containers should be taken to an approved waste handling site for recycling or disposal.                                                         |

## **SECTION 14. TRANSPORT INFORMATION**

### **Road and Rail Transport**

Classified as **non-Dangerous Goods** by the criteria of the Australian Dangerous Goods Code (ADG Code 7<sup>th</sup> ed.) for Transport by Road and Rail; Classified as **non-Dangerous** according to NZS 5433:2012 Transport of Dangerous Goods on Land.

### **Marine Transport**

Classified as **non-Dangerous Goods** by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

### **Air Transport**

Classified as **non-Dangerous Goods** by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

## **SECTION 15. REGULATORY INFORMATION**

|                                         |                                                                                                                             |
|-----------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| AICS                                    | All substances listed                                                                                                       |
| Poisons Schedule                        | Not scheduled                                                                                                               |
| NZ Approval Code                        | Cleaning Products (Subsidiary Hazard) Group Standard 2020. The HSNO Approval Number for this Group Standard is s HSR002530. |
| United States TSCA Inventory            | On TSCA Inventory                                                                                                           |
| Canadian Domestic Substances List (DSL) | All components of this product are on the Canadian DSL.                                                                     |

## **SECTION 16. OTHER INFORMATION**

|               |                                                                                |
