SECTION 4. FIRST AID MEASURES

General advice	Move non-essential personnel away from treatment area, spill, or dangerous area.
	Do not leave victim unattended.
	Have this safety data sheet available for emergency/medical responders.

If inhaled	Remove to fresh air.

If casualty is unconscious and not breathing - ensure that there is no obstruction to breathing and give artificial respiration by trained personnel. If necessary, give external cardiac massage and obtain medical assistance. If casualty is unconscious and breathing, place in the recovery position, obtain medical assistance. Administer

oxygen if necessary.

In case of skin If on skin, rinse well with water.

If on clothes, remove clothes. Wash clothing before reuse. Get medical attention if contact

symptoms develop.

In case of eye Rinse immediately with plenty of water, also under the eyelids, for at least 15 contact minutes. Remove contact lenses, if present and easy to do. Continue rinsing eyes

during transport to hospital. Protect unharmed eye. Keep eye wide open while rinsing. Small amounts splashed into eyes can cause irreversible tissue damage

and blindness

If swallowed Rinse mouth with water. Do NOT induce vomiting. Never give anything by mouth to

an unconscious person. Get medical attention if symptoms develop.

Protection of first aiders

If potential for exposure exists refer to Section 8 for specific personal protective

equipment.

Notes to physician Treat Symptomatically.

Most important Effects are immediate and delayed.

Symptoms may include blistering, irritation, burns, and pain. Symptoms may include symptoms and difficulty breathing, coughing, wheezing, throat irritation, and tightness/closure of effects, both acute

and delayed airway.

SECTION 5. FIREFIGHTING MEASURES

Suitable extinguishing Water mist media Dry powder

Alcohol-resistant foam Carbon dioxide (CO2) Do not use water jet as an extinguisher, as this will spread the fire.

Unsuitable extinguishing

equipment for firefighters

media

products

methods

Specific hazards during Not flammable or combustible. May produce toxic fumes, for example,

firefighting carbon monoxide if burning.

Hazardous combustion Decomposition products may include the following materials:

Carbon oxides Nitrogen oxides

Smoke

Special protective Firefighters are to wear self-contained breathing apparatus if in risk of

exposure to fumes or products of combustion.

Specific extinguishing Promptly isolate the scene by removing all persons from the vicinity of

the incident if there is a fire. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local

regulations.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid inhalation, ingestion and contact with skin and eyes. When workers are facing concentrations above the exposure limit, they must use appropriate certified respirators. Ensure cleanup is conducted by trained personnel only. Refer to protective measures listed in Sections 7 and 8.

measures listed in Sections 7 and 8

Environmental precautions Do not allow contact with soil. Prevent runoff to waterways, drains,

stormwater or sewer.

Methods and materials for containment and cleaning

up

Stop leak if safe to do so. Contain spillage, and then collect with non-combustible absorbent material e.g., sand, earth,

diatomaceous earth, vermiculite, and place in container for disposal

according to local / national regulations (see Section 13). Neutralise area with chalk or dilute alkali solution. Flush away traces with water. For large spills (>5L), dike spilled material or otherwise contain material to ensure runoff does not reach a

waterway.

SECTION 7. HANDLING AND STORAGE

Advice on safe handling Avoid formation of aerosols. Do not breathe mists, vapours or

spray. Use only with adequate ventilation.

Avoid exposure - obtain special instructions before use.

Smoking, eating and drinking should be prohibited in the application area.

Wash hands thoroughly after handling. Do not get in eyes, on skin, or on clothing.

Persons susceptible to skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being used.

Rain-X Online Protectant Plus 5-Gal

Conditions for safe storage Do not store near strong bases or reducing agents. Store in

suitable labelled containers. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be

carefully resealed and kept upright to prevent leakage.

Electrical installations / working materials must comply with the

technological safety standards.

expected.

Eye protection Tightly fitting safety goggles

Wear face-shield and protective suit for abnormal processing problems.

Skin protection Wear protective clothing and footwear.

Hygiene measures Handle in accordance with good industrial hygiene and safety

practices. Remove and wash contaminated clothing before re-use. Wash face, hands and any exposed skin thoroughly after handling. Provide suitable wash facilities for quick drenching or flushing of
