

Blue Coral 1 Step Wheel Cleaner

SECTION 1. IDENTIFICATION

Product Name BLUE CORAL 1 Step Wheel Cleaner

Material number V28136

Recommended use of the chemical and restrictions on use

Recommended use Wheel Cleaner

Australian Distributor Velocity Vehicle Care Pty Ltd

10 Holmwood Rd, Tottenham, VIC, 3012

Ph: 1300 990 074 Fax: 03 8669 4179

Email: orders@velocitvvehiclecare.com

Emergency Number Australia: 1800 127 406

Overseas Supplier Zep Inc

SECTION 2. HAZARDS IDENTIFICATION

Dangerous Goods Classification

Classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code 7th ed.) for transport by Road and Rail.

Classified as a Dangerous Good under NZS 5433:2012 Transport of Dangerous Goods on Land.

GHS Classification

Hazardous according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) 7th ed.

Skin corrosion Category 1C Eye damage Category 1

GHS label elements

Hazard pictograms

Signal Word DANGER

Blue Coral 1 Step Wheel Cleaner

Hazard statements H314 Causes severe skin burns and eye damage.

P260 Do not breathe mists.

P264 Wash skin thoroughly after handling.

P270 Do not eat, drink or smoke when using this product.

P271 Use in a well-ventilated area.

P280 Wear protective gloves, protective clothing, eye protection and face protection.

Response

P301 + P330 + P331 + P310 **IF SWALLOWED**: Rinse mouth. Do NOT induce vomiting. Immediately call a POISON CENTRE/doctor.

P303 + P361 + P353 **IF ON SKIN (or hair):** Take off immediately all contaminated clothing. Rinse skin with shower.

P304 + P340 + P310 **IF INHALED**: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a POISON CENTRE/doctor.

P305 + P351 + P338 + P310 **IF IN EYES**: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTRE/doctor.

P333 + P313 If skin irritation or rash occurs: Get medical advice.

P363 Wash contaminated clothing before reuse.

Storage

P405 Store locked up.

Disposal

P501 Dispose of contents & container in accordance with local, regional & national Regulations.

Blue Coral 1 Step Wheel Cleaner

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture Mixture

Hazardous components

Chemical name	CAS-No.	Concentration [%]
Tetrasodium ethylenediaminetetraacetate	64-02-8	≥ 1 - < 5
Sodium xylenesulfonate	1300-72-7	≥ 1 - < 5
1-Propanaminium, 3-amino-N-(carboxymethyl)-N,N-dimethyl-, N-coco acyl derivs., hydroxides, inner salts	61789-40-0	≥1-<5
Alcohols, C9-11, ethoxylated	68439-46-3	≥ 1 - < 5
Sodium hydroxide	1310-73-2	≥ 1 - < 5
Alcohols, C12-15, ethoxylated	68131-39-5	≥ 1 - < 5

The exact percentages of disclosed substances are withheld as trade secrets.

SECTION 4. FIRST AID MEASURES

General advice Move non-essential personnel away from treatment area, spill, or dangerous

area.

Have this safety data sheet available for emergency/medical responders.

If inhaled Remove to fresh air. Treat symptomatically. Get medical attention if symptoms

occur.

In case of skin contact Wash off immediately with plenty of water for at least 20 minutes. Remove

contaminated clothing and shoes. If skin is burned, cover burn with a loose sterile gauze dressing. Take victim to hospital or a medical centre as soon as possible.

Wash contaminated clothing before re-use.

In case of eye contact Small amounts splashed into eyes can cause irreversible tissue damage and

blindness. Rinse immediately with plenty of water, also under the eyelids, for at

least 20 minutes.

Continue rinsing eyes during transport to hospital. Remove contact lenses.

Protect unharmed eye. Keep eye wide open while rinsing.

After treatment, if symptoms persist, get immediate medical advice.

If swallowed Rinse mouth with water.

If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration.

Rinse mouth with water again.

Immediately call a Poison Centre or doctor. Treatment is urgently required.

Transport to a hospital.

Do **NOT** induce vomiting unless directed to do so by a doctor or Poison Centre.

Never give anything by mouth to an unconscious person.

If potential for exposure exists refer to Section 8 for specific personal protective

equipment.

Notes to physician Treat symptomatically as for strong alkaline substance. Symptoms may be

delaved.

Most important

symptoms and effects,

both acute and delayed

Protection of first

aiders

Effects are immediate and delayed.

Symptoms may include blistering, irritation, burns, and pain. Effects are

dependent on exposure (dose, concentration, contact time).

Causes severe skin burns and eye damage.

Review section 2 of SDS to see all potential hazards..

Safety Data Sheet Version 2.0 Revised 28 Jun 2021

Blue Coral 1 Step Wheel Cleaner

SECTION 5. FIREFIGHTING MEASURES

Suitable extinguishing

media

Unsuitable extinguishing media

Specific hazards during

firefighting

Hazardous combustion

products

Special protective

equipment for firefighters

Specific extinguishing

methods

Use extinguishing measures that are appropriate to local

circumstances and the surrounding environment. Do not use water jet as an extinguisher, as this will spread the fire.

Not flammable or combustible. May produce toxic fumes, for example,

carbon monoxide if burning.

Decomposition products may include the following materials: Carbon

oxides

Sulfur oxides

Firefighters are to wear self-contained breathing apparatus if in risk of

exposure to fumes or products of combustion.

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. In the event of fire and/or explosion do not breathe fumes. Fire residues and contaminated fire extinguishing water

must be disposed of in accordance with local regulations.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid inhalation, ingestion and contact with skin and eyes. When workers are facing concentrations above the exposure limit, they must use appropriate certified respirators. Ensure cleanup is conducted by trained personnel only. Refer to protective

Environmental precautions

Methods and materials for containment and cleaning

up

measures listed in Sections 7 and 8. Do not allow contact with soil. Prevent runoff to waterways, drains,

stormwater or sewer. Stop leak if safe to do so. Contain spillage, and then collect with

non-combustible absorbent material e.g., sand, earth,

diatomaceous earth, vermiculite, and place in container for disposal according to local / national regulations (see Section 13). Flush away traces with water. For large spills (>5L), dike spilled material or otherwise contain material to ensure runoff does not reach a

waterway.

SECTION 7. HANDLING AND STORAGE

Advice on safe handling When diluting, always add the product slowly to the water. Never

add the water directly to the product as violent spattering can occur.

Do not breathe vapours or mists.

Avoid contact with skin and eyes. For personal protection see

Section 8.

Smoking, eating and drinking should be prohibited in the application

Dispose of rinse water in accordance with local and national

regulations.

Do not store near acids. Keep container tightly closed in a dry and Conditions for safe storage

well-ventilated place.

Containers which are opened must be carefully resealed and kept upright to prevent leakage. Observe label precautions. Do not store in aluminium or galvanised containers nor use die-cast zinc or

aluminium bungs; plastic bungs should be used.

Electrical installations / working materials must comply with the

technological safety standards.

5 - 40 °C Storage temperature

Version 2.0

Safety Data Sheet

Blue Coral 1 Step Wheel Cleaner

Revised 28 Jun 2021

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
Sodium hydroxide	1310-73-2	TWA	2 mg/m3	SWA/NZ WES

Biological occupational	None allocated.
exposure limits	

Engineering measures Effective exhaust ventilation system. Maintain air concentrations below

occupational exposure standards.

Personal protective

equipment

Respiratory protection Avoid breathing mists or sprays. Use respiratory protection unless

adequate local exhaust ventilation is provided, or exposure assessment

demonstrates that exposures are within recommended exposure

guidelines.

Hand protection Wear chemical resistant gloves e.g. nitrile, neoprene, butyl, natural

rubber.

Eye protection Safety glasses with side-shields. Face shield where risk assessment

indicates additional protection is needed.

Skin protection Wear protective clothing and footwear.

Hygiene measures Handle in accordance with good industrial hygiene and safety

practices. Remove and wash contaminated clothing before re-use. Wash face, hands and any exposed skin thoroughly after handling. Provide suitable wash facilities for quick drenching or flushing of

the eyes and body in case of contact or splash hazard.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Product

Appearance liquid Colour orange

Odour characteristic

Odour threshold No data pH 13-14

Melting point/freezing point no data available

Boiling point no data available

Flash point >100°C

Evaporation rate no data

Upper explosion limit no data

Lower explosion limit no data

Vapour pressure no data

Relative vapour density no data

Blue Coral 1 Step Wheel Cleaner

Density 1.10 - 1.11 g/cm3

Water solubility soluble
Solubility in other solvents no data
Partition coefficient: n- no data

octanol/water

Auto-ignition temperature no data
Thermal decomposition no data
Viscosity, kinematic no data

SECTION 10. STABILITY AND REACTIVITY

Chemical stability Stable under normal conditions.

Possibility of hazardous reactions
No dangerous reaction known under conditions of normal use.

Conditions to avoid Keep away from direct sunlight. Freezing temperatures.

Incompatible materials Metals including aluminium, tin, and zinc. Acids.

Hazardous decomposition No decomposition if stored and applied as directed

products

SECTION 11. TOXICOLOGICAL INFORMATION

Potential Health Effects

Information on possible routes of exposurePossible workplace exposure routes are: dermal, inhalation, eyes.

Effects are immediate and delayed.

Effects are dependent on exposure (dose, concentration, contact time).

Symptoms may

Acute symptoms related to exposure

Eye May cause severe pain and burns. Also stinging, blurred vision,

tearing. Can cause corneal burns. If not treated immediately,

permanent eye damage may result.

Skin May cause burns, scarring, irritation, redness, pain and blistering.

Effects can be delayed.

Inhalation May cause respiratory irritation, burning to respiratory tract.

Ingestion May cause severe burns to the mouth, tongue, oesophagus and

stomach. May cause nausea, vomiting, stomach cramps, diarrhea

and pain.

Acute oral toxicity >5000 mg/kg

Method: Calculation method

Acute inhalation toxicity no data available

Method: Calculation method

Skin corrosion/irritation Extremely corrosive and destructive to tissue.

Serious eye damage/eye

irritation

May cause irreversible eye damage.

Not a respiratory or skin sensitiser.

Respiratory or skin sensitisation

Germ cell mutagenicity no data available
Carcinogenicity no data available
Reproductive toxicity no data available

Page 6 of 9

Blue Coral 1 Step Wheel Cleaner no data available

STOT - single exposure no data available STOT - repeated exposure no data available

Aspiration toxicity no data available

Components
(Ingredients)

Acute oral toxicity

Alcohols, C9-11, ethoxylated: LD50 Oral Rat: 1,400 mg/kg

Alcohols, C12-15, ethoxylated: LD50 Oral Rat: 500 - 5,000 mg/kg

Acute inhalation toxicity

Acute dermal toxicity sodium hydroxide: estimate Rabbit: 1,350 mg/kg

Skin corrosion/irritation

Serious eye damage/eye

irritation

Respiratory or skin sensitisation

Germ cell mutagenicity

Carcinogenicity

Reproductive toxicity

STOT - repeated exposure tetrasodium ethylenediaminetetraacetate: Inhalation route

Assessment: May cause damage to organs through prolonged or

repeated exposure.

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity For the component sodium hydroxide - A high concentration of

sodium hydroxide in water will increase the alkalinity of the water,

which can be harmful for aquatic life.

Toxicity to fish no data available

Toxicity to daphnia and

other aquatic invertebrates

no data available

Toxicity to algae

no data available

Components (Ingredients)

Toxicity to fish Sodium hydroxide: Brachydanio rerio 55.6 mg/L < LC50 (96h) <

100 mg/L

Gambusia affinis (Mosquito fish): 125 mg/l LC 50 (96h)

Test Method: static test

Toxicity to aquatic invertebrates

Sodium hydroxide: Daphnia Ceriodaphnia dubia LC50 (48H) = 40 mg/L

(fresh water)

Persistence and The composing degradability therefore n

The component, sodium hydroxide is an inorganic substance and therefore not responsive to biodegradation. In the presence of water, it

will break down into salts depending on the ions present in the

environment.

The major surfactants in this product are readily biodegradable.

Bioaccumulative potential The ingredient, sodium hydroxide, is inorganic which does not

bioaccumulate in the food chain.

Partition coefficient: n-

octanol/water

No data available

Mobility in soil No data available

Blue Coral 1 Step Wheel Cleaner

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods

Waste from residues Where possible recycling is preferred to disposal or incineration. If

recycling is not practicable, dispose of in compliance with local regulations. Dispose of wastes in an approved waste disposal facility. Disposal to sewer may only occur by agreement with local authorities e.g. council, water authority and in accordance with existing regulations. Do not contaminate ponds, waterways or ditches with chemical or used

container

Contaminated packaging Empty remaining contents. Dispose of as unused product. Do not re-

use empty containers. Empty containers should be taken to an

approved waste handling site for recycling or disposal.

SECTION 14. TRANSPORT INFORMATION

Road and Rail Transport

Classified as **Dangerous Goods/Dangerous Goods** by the criteria of the Australian Dangerous Goods Code (ADG Code 7th ed.) for Transport by Road and Rail; Classified as **Dangerous Goods** according to NZS 5433:2012 Transport of Dangerous Goods on Land.

Land transport (ADG)

UN number 1824
