

Version 3.0 Safety Data Sheet Revised 23 Apr 2021

Mega Foam White

SECTION 1. IDENTIFICATION

Product Name Mega Foam White 2x2.5 Gal

Material number 14470-WD1

Recommended use of the chemical and restrictions on use

Recommended use Specialty Cleaner and Remover

Australian Distributor Velocity Vehicle Care Pty Ltd

10 Holmwood Rd, Tottenham, VIC, 3012

Ph: 1300 990 074 Fax: 03 8669 4179

Email: orders@velocityvehiclecare.com

Emergency Number Australia: 1800 127 406

NZ Distributor Velocity Vehicle Care NZ Ltd Level 4

3 London St, Hamilton, 3204

Emergency Number New Zealand: 0800 243 622

Overseas Supplier Zep Inc

SECTION 2. HAZARDS IDENTIFICATION

Dangerous Goods Classification

Classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code 7th ed.) for transport by Road and Rail.

Classified as a Dangerous Good under NZS 5433:2012 Transport of Dangerous Goods on Land.

GHS Classification

Hazardous according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) 7th ed.

Skin corrosion Category 1B
Serious eye damage Category 1
Respiratory sensitisation Category 1
Skin sensitisation Category 1

GHS label elements

Hazard pictograms

Signal Word DANGER

Safety Data Sheet Mega Foam White

Revised 23 Apr 2021

Hazard statements

H314 Causes severe skin burns and eye damage.

H317 May cause an allergic skin reaction.

H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.

Precautionary statements

Prevention

P260 Do not breathe mists and sprays.

P264 Wash skin thoroughly after handling.

P272 Contaminated work clothing should not be allowed out of the workplace.

P280 Wear protective gloves, protective clothing, eye protection and face protection.

P284 In case of inadequate ventilation wear respiratory protection.

Response

P301 + P330 + P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

P310 Immediately call for medical assistance.

P303 + P361 + P353 + P363 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with shower. Wash contaminated clothing before reuse.

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P313 If eye irritation persists: Get medical advice/attention.

P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P342 + P311 If experiencing respiratory symptoms: Call a doctor or medical centre immediately.

Storage

P405 Store locked up.

Disposal

P501 Dispose of contents & container in accordance with local, regional & national regulations.

Safety Data Sheet Mega Foam White

Revised 23 Apr 2021

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture Mixture

Hazardous components

Chemical name	CAS-No.	Concentration [%]
Benzenesulfonic acid, C10-16-alkyl derivs.	68584-22-5	>= 10 - < 20
Sodium xylene sulphonate	1300-72-7	>= 1 - < 5
Sulfuric acid, mono-C10-16-alkyl esters, sodiumsalts	68585-47-7	>= 1 - < 5
Glutaral	111-30-8	>= 1 - < 5
Benzaldehyde	100-52-7	>= 1 - < 5

The exact percentages of disclosed substances are withheld as trade secrets.

SECTION 4. FIRST AID MEASURES

General advice Move non-essential personnel away from treatment area, spill, or dangerous area.

Have this safety data sheet available for emergency/medical responders.

If inhaled Remove to fresh air.

> If casualty is unconscious and not breathing - ensure that there is no obstruction to breathing and give artificial respiration by trained personnel. If necessary, give external cardiac massage and obtain medical assistance. If casualty is unconscious and breathing, place in the recovery position, obtain medical assistance. Administer

oxygen if necessary.

In case of skin Wash off immediately with plenty of water for at least 15 minutes. Immediate

contact medical treatment is necessary as untreated wounds from corrosion of the skin heal

slowly and with difficulty.

Remove contaminated clothing and shoes. Wash contaminated clothing before

If symptoms persist after treatment, get further medical assistance.

In case of eve

If swallowed

contact

Small amounts splashed into eyes can cause irreversible tissue damage and

Rinse immediately with plenty of water, also under the eyelids, for at least 15

minutes. Continue rinsing eyes during transport to hospital.

Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing. Rinse mouth with water. Do NOT induce vomiting. Never give anything by mouth to

an unconscious person. Get medical attention if symptoms develop.

Contact the Poison's Information Centre (Australia 131 126; New Zealand 0800 764

If potential for exposure exists refer to Section 8 for specific personal protective

Protection of first

aiders

equipment.

Treat Symptomatically.

Notes to physician

Most important symptoms and effects, both acute

and delayed

Effects are dependent on exposure (dose, concentration, contact time).

Effects are immediate and delayed.

Eye contact symptoms may include irritation, redness, pain, stinging and watering. Corneal damage can occur without treatment. Respiratory symptoms may include difficulty breathing, coughing, wheezing, throat irritation, and tightness/closure of airway. Skin contact symptoms may include blistering, irritation, burns, redness and

pain.

Safety Data Sheet Version 3.0 Revised 23 Apr 2021 Mega Foam White

SECTION 5. FIREFIGHTING MEASURES

Suitable extinguishing Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

media

Do not use water jet as an extinguisher, as this will spread the fire. Unsuitable extinguishing

media

products

Not flammable or combustible. May produce toxic fumes, for example, Specific hazards during

carbon monoxide if burning. firefighting

Decomposition products may include the following materials: **Hazardous combustion**

Carbon oxides (carbon dioxide, carbon monoxide)

Sulfur oxides

Smoke

Firefighters are to wear self-contained breathing apparatus if in risk of **Special protective** equipment for firefighters

exposure to fumes or products of combustion.

Specific extinguishing

methods

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. In the event of fire and/or explosion do not breathe fumes. Fire residues and contaminated fire extinguishing water

must be disposed of in accordance with local regulations.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid inhalation, ingestion and contact with skin and eyes. When workers are facing concentrations above the exposure limit, they must use appropriate certified respirators. Ensure cleanup is conducted by trained personnel only. Refer to protective

measures listed in Sections 7 and 8.

Do not allow contact with soil. Prevent runoff to waterways, drains, **Environmental precautions**

stormwater or sewer.

Methods and materials for containment and cleaning

up

Stop leak if safe to do so. Contain spillage, and then collect with non-combustible absorbent material e.g., sand, earth,

diatomaceous earth, vermiculite, and place in container for disposal according to local / national regulations (see Section 13). Flush away traces with water. For large spills (>5L), dike spilled material or otherwise contain material to ensure runoff does not reach a

waterway.

SECTION 7. HANDLING AND STORAGE

Advice on safe handling Avoid formation of aerosols. Do not breathe mists, vapours or

spray. Provide sufficient air exchange and/or exhaust in work rooms. Avoid exposure - obtain special instructions before use. Avoid contact with skin and eyes. Wash hands thoroughly after

handling. Do not get in eyes, on skin, or on clothing.

Smoking, eating and drinking should be prohibited in the application area. To avoid spills during handling keep bottle on a metal tray. Dispose of rinse water in accordance with local and national

regulations.

Persons susceptible to skin sensitisation problems or asthma, allergies, chronic or recurrent respiratory disease should not be employed in any process in which this mixture is being

used.

Conditions for safe storage Keep container tightly closed in a dry and well-ventilated place.

Containers which are opened must be carefully resealed and kept

upright to prevent leakage. Observe label precautions.

Store away from oxidizing agents and alkalis.

Storage temperature

10 - 50 °C

Safety Data Sheet Mega Foam White

Revised 23 Apr 2021

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parameters / Permissible concentration	Basis
Glutaral	111-30-8	TWA	0.1 ppm peak limitation 0.41 mg/m³ peak limitation	SWA
		TWA	Ceiling 0.05ppm (0.21mg/m3)	NZ WES

Biological occupational exposure limits						
Component	CAS-No.	Control	Biological	Sampling time	Permissible	Basis
		parameters	specimen		concentration	
None allocated						

Effective exhaust ventilation system. Maintain air concentrations below **Engineering measures**

occupational exposure standards.

Personal protective

equipment

Avoid breathing mists or sprays. Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment Respiratory protection

demonstrates that exposures are within recommended exposure guidelines. Respirator filter should protect against organic vapours.

Wear rubber gloves such as nitrile, neoprene or other resistant gloves **Hand protection**

such as PVC, if contact with skin is expected.

Tightly fitting safety goggles Eye protection

Wear face-shield and protective suit for abnormal processing problems.

Impervious clothing

Skin protection Choose body protection according to the amount and concentration

of the dangerous substance at the work place.

Handle in accordance with good industrial hygiene and safety

practices. Remove and wash contaminated clothing before re-use. Wash face, hands and any exposed skin thoroughly after handling. Hygiene measures

Provide suitable wash facilities for quick drenching or flushing of

the eyes and body in case of contact or splash hazard.

Version 3.0 Safety Data Sheet

Mega Foam White

Revised 23 Apr 2021

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Product

>100°

Appearance Liquid
Colour Colourless
Odour Odourless

Odour threshold N/A
pH 6.5-7.5
Melting point/freezing point No data
Boiling point No data

Evaporation rate No data
Upper explosion limit No data
Lower explosion limit No data
Vapour pressure No data
Relative vapour density No data

Density 1.025 - 1.07 g/cm3

Water solubility

Solubility in other solvents

Partition coefficient: noctanol/water

No data

No data

Auto-ignition temperature No data
Thermal decomposition No data
Viscosity, kinematic No data

SECTION 10. STABILITY AND REACTIVITY

Chemical stability Stable under normal conditions.

Possibility of hazardous reactions

No dangerous reaction known under conditions of normal use.

Conditions to avoid Extremes of temperature. Incompatible materials Oxidizing agents, Alkalis.

This product contains sodium hydroxide or potassium hydroxide that may corrode some soft metals and may react with tin, zinc, aluminium to form

hydrogen gas.

Hazardous decomposition

products

Flash point

Decomposition products may include the following materials:

carbon oxides

sulfur oxides.

Safety Data Sheet Mega Foam White

Revised 23 Apr 2021

SECTION 11. TOXICOLOGICAL INFORMATION

Potential Health Effects

Possible workplace exposure routes are:

Inhalation Information on possible Eve contact routes of exposure Skin contact

Acute symptoms related

to exposure

Symptoms include redness, pain, tearing, eyelid spasms, blurred Eye

vision, chemical conjunctivitis, burns. Risk of permanent eye

and/or blindness.

Corrosive. Product can cause redness, pain, itching, scaling, Skin

occasional blistering, and severe skin burns.

Vapour or mist can cause irritation of the nose, throat, and upper Inhalation

respiratory tract. May also cause difficulty breathing, coughing, wheezing and tightness/closure of airway.

Burns to the mouth, throat and stomach. Symptoms include

difficulty swallowing, severe gastrointestinal irritation, nausea,

vomiting, diarrhoea, severe abdominal pains.

Acute toxicity estimate: 2,219 mg/kg Acute oral toxicity

Method: Calculation method Acute toxicity estimate: 50.01 mg/l

Exposure time: 4 h Acute inhalation toxicity Test atmosphere: vapour

Method: Calculation method

Acute dermal toxicity Acute toxicity estimate: > 5,000 mg/kg Extremely corrosive and destructive to tissue Skin corrosion/irritation

Serious eye damage/eye

irritation

Ingestion

May cause irreversible eye damage

Respiratory or skin Causes sensitisation. sensitisation

No data available Germ cell mutagenicity No data available Carcinogenicity No data available Reproductive toxicity No data available STOT - single exposure No data available STOT - repeated exposure

Aspiration toxicity No data available

Components (Ingredients)

Sulfuric acid, mono-C10-16-alkyl esters, sodium salts

LD50 Rat: 800 - 2,700 mg/kg

Acute oral toxicity Glutaral

LD50 Rat - 77 mg/kg

Glutaral Acute inhalation toxicity

LC50 Rat, 4 h exposure 0.28 < LC50 < 0.39 mg/L

Sulfuric acid, mono-C10-16-alkyl esters, sodium salts

LD50 Rabbit: >= 10,000 mg/kg

Acute dermal toxicity Glutaral

LD50 Rat > 2000 mg/kg

Skin corrosion/irritation No data

Serious eye damage/eye

irritation

No data

Safety Data Sheet Version 3.0 Revised 23 Apr 2021

Mega Foam White

Glutaral Respiratory or skin Skin: sensitiser sensitisation

Respiratory: sensitiser

Glutaral

Germ cell mutagenicity In vitro studies suggest mutagenicity.

In vivo studies - no adverse effects known

Carcinogenicity Glutaral - no adverse effect known

Reproductive toxicity Glutaral - no adverse effects known

STOT - repeated exposure Glutaral - no adverse effects known

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

Toxicity to fish no data available

Toxicity to daphnia and

other aquatic no data available

invertebrates

Toxicity to algae no data available

Components (Ingredients)

Toxicity to fish

Persistence and No data on product. Listed components are either readily biodegradable

degradability of partially degradable.

Bioaccumulative potential No data available Partition coefficient: n-Glutaral - Pow: 0.36 octanol/water Benzaldehyde - Pow: 1.48

Mobility in soil No data available

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods

Contaminated packaging

Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local

Waste from residues and regulations. Dispose of wastes in an approved waste disposal facility. If product.

local regulations allow, residues sent to sewer must be diluted, pH neutral

and non-foaming.

Empty remaining contents. Dispose of as unused product. Do not re-

use empty containers. Empty containers should be taken to an

approved waste handling site for recycling or disposal.

Safety Data Sheet Mega Foam White

Revised 23 Apr 2021

SECTION 14. TRANSPORT INFORMATION

Road and Rail Transport

Classified as **Dangerous Goods** by the criteria of the Australian Dangerous Goods Code (ADG Code 7th ed.) for Transport by Road and Rail; Classified as **Dangerous Goods** according to NZS 5433:2012 Transport of Dangerous Goods on Land.

Land transport (ADG)

UN number 1760

Shipping name Corrosive Liquid N.O.S (Contains Benzenesulfonic acid, C10-16-

alkyl derivs)

Class 8
Packing group III
Hazchem Code 2X

Marine Transport

Classified as **Dangerous Goods** by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

Marine transport

(IMDG/IMO)

UN number 1760

Shipping name Corrosive Liquid N.O.S (Contains Benzenesulfonic acid, C10-16-

alkyl derivs)

Class 8
Packing group III
Marine pollutant No

Air Transport

Classified as **Dangerous Goods** by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

Air transport (IATA)

UN number 1760

Shipping name Corrosive Liquid N.O.S (Contains Benzenesulfonic acid, C10-16-

alkyl derivs)

Class 8 Packing group III

SECTION 15. REGULATORY INFORMATION

AICS All substances listed

Poisons Schedule S5 (glutaral)

NZ Approval Code Cleaning Products (Corrosive) Group Standard 2020

The HSNO Approval Number for this Group Standard is HSR002526.

United States TSCA Inventory On TSCA Inventory

Canadian Domestic This product contains one or more components that are listed on the Substances List (DSL) Canadian NDSL. All other components are on the Canadian DSL.
