<b>Most important symptoms and effects, both acute and delayed</b>	Effects may be delayed; symptoms may include minor eye or skin irritation. Overexposure may cause mild eye or skin irritation.

**SECTION 5. FIREFIGHTING MEASURES**

<b>Suitable extinguishing media</b>	Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
<b>Unsuitable extinguishing media</b>	Do not use water jet as an extinguisher, as this will spread the fire.
<b>Specific hazards during firefighting</b>	During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and/or irritating.
<b>Hazardous combustion products</b>	Silicon oxides Smoke Carbon dioxide (CO <sub>2</sub> ) Carbon monoxide
<b>Special protective equipment for firefighters</b>	Wear self-contained breathing apparatus for firefighting if necessary.
<b>Specific extinguishing methods</b>	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations

**SECTION 6. ACCIDENTAL RELEASE MEASURES**

**Personal precautions, protective equipment and emergency procedures**

**Environmental precautions**

Prevent product from entering drains.  
Prevent further leakage or spillage if safe to do so.  
If the product contaminates rivers and lakes or drains, inform respective authorities.

**Methods and materials for containment and cleaning up**

Stop leak if safe to do so. Contain spillage, and then collect with non-combustible absorbent material e.g., sand, earth, diatomaceous earth, vermiculite, and place in container for disposal according to local / national regulations (see Section 13) . Flush away traces with water. For large spills (>5L), dike spilled material or otherwise contain material to ensure runoff does not reach a waterway. Collect spilled material in suitable labelled containers for disposal.

**SECTION 7. HANDLING AND STORAGE**

**Advice on safe handling**

Avoid contact with skin and eyes. For personal protection see section 8.
